The TV makes crackling or popping cracked hearing sounds or popping sounds after you turn off the TV can be alarming. However, this is completely harmless and will not affect the TV. Here are some tips to help reduce this from happening. television-home-theatre/television Page 11 of 19: Why is my TV talking to me? If you've ever accidentally turned on the Voice Guide for your TV, you'll find out it. Designed to help visually impaired navigate their TV, this feature adds an audible cheer on each indicator on the screen, from the channels you're watching to apps you've highlighted. The same menu is also used to turn on this feature, which is great for anyone who can't create letters and prompts on the screen that are so common on TV today. Whether you set up TV for older loved ones or wanted a feature for your own help, it was god for anyone who needed it. Here's how to access the Voice Guide.:1. Go to Accessibility Settings. Samsung smart TVs have several features to improve the user experience for visually impaired or hearing hard, and they are available under the Accessibility section of the Settings menu.2. Turn the Voice Guide on or off. Below Voice Guide, the first option is an easy toggle to turn on or off the characteristics of the voice guide. Below is a set that allows you to complete the voice guide, with options for the amount of history, speed and field. Now Playing: Watch this: Stop your Samsung Smart TV from peeking at your Editor's note, March 7, 2017: This post great attention in March 2017, now that the WikiLeaks document cache has allegedly revealed that the CIA might use the same Samsung TV to spy on you. However, if that is true, it is unlikely that the steps in this guide will protect you. Read more about the so-called Angels Crying hack. Original post: It sounds like something straight out of George Orwell's 1984. Samsung's Smart TV privacy policy, which most people never bother reading, reveals that your sleek new television set may be capable of spying on you. Samsung warns that customers should be aware that if your speech words include personal or other sensitive information, that information will be between data captured and transmitted to third parties through the use of your Voice Recognition. It sounds scary, but it's a bit overwhelming. Many devices have similar speech features that are always listening, which includes Moto X, Nexus devices, Amazon Echo, Microsoft Kinect and also iPhone (when the device is installed and Hey, Siri commands are enabled). The so-called scandal also affects only a small number of Samsung Smart TV models. While most Samsung Smart TVs have some kind of voice function, it almost everything requires you to press the microphone button on the remote control before it starts listening. Models that can recognize your voice are the ones that include built-in cameras and microphones, such as Samsung PN60F8500. The TV actually won't start processing anything you say, however, until you say voice commands, like Hi TV. In any case, if you're afraid that Samsung and an unnamed third-party partner (the company actually translates your voice to text) listening to your conversations, you can only turn off the Voice Recognition feature. To do this, go to the Settings menu and select Smart Features. Then scroll down to Voice Recognition and turn it off. Although you can no longer use the Hi TV command to activate the voice feature, you can still access it by pressing the microphone button on your remote control. When it comes to Voice Assistants, Bixby has yet to be compared to the likes of Alexa and the Google Assistant. Some people love Bixby's assistant and find that it works great for them. But others aren't too happy with overall responsiveness and prefer to turn off features at all. However, this process is not entirely clear or simple. In this article, we will show you how to silent Bixby on your Samsung TV. Disabling Bixby on Samsung TV: Bixby allows you to access all kinds of features on your Samsung TV. All you need is your voice. Call Bixby by its name and ask it to lower the volume or tell you what the weather is like in West. Bixby doesn't hear your instructions correctly, or miscomplaining other communications happen, it can be quite frustrating. To turn Bixby off on your TV, here's what you need to do: On your Samsung remote control, press the Home button. Use your left key to find the Settings option. Scroll down and General. Now select Bixby Voice Settings. Then choose the Wake Voice option. Bixby will be set to On. Use your remote control to highlight Off and press OK on your remote control. After you exit the settings, be sure to confirm that the Bixby feature is completely disabled. Just say Hey Bixby, and if the TV doesn't wake up and wait for additional instructions, that means you've managed to turn it off. You should try several times, in a progressively stronger voice tone. One of the problems some users face with Bixby is the inconsistencies with which it responds to their voice volume. Bixby Wake Up Sensitivity: Are you stopped Bixby because it responds to your voice even if you don't talk to him? No need to worry, there's something you can do about that. You can change the sensitivity of Wake Up Bixby. Follow the same steps as above to get to the Voice Wake-Wake setting. Once you're there, let the Bixby Leave feature and move on to the voice sensitivity section. You can choose to have the sensitivity of waking up to Low, Medium, or High. Be sure to choose either Low or Medium if you don't want Bixby to get up and start talking to you anywhere. And if you don't like the voice that speaks to you, you can choose another one. Bixby is automatically set to John the male voice. But there are four different voices in total. There are Julia, Lisa, and Stephanie juga. Turn off Voice Guide: Even when the Voice Assistant feature is off, there's still a way your Samsung TV might start talking to you. You may have turned on a Voice Guide feature designed to help visually impaired users. The Voice Guide offers a narration that helps them navigate their Samsung TV. But if you don't need this accessibility feature, you can turn it off easily. Here's how you do it: On your Samsung remote control, press the Home button. Scroll left and select Settings. Select Public and then choose Accessibility. On the menu, you'll see The Voice Guide Settings. Deletes the button next to it. It will go from green to gray. That's it - you've successfully turned off the Voice Guide. You can follow the same steps if you need to turn it on again. But if you're not sure if you want to disable this feature, but you're a bit angry with it at the same time, you can customize it. In the same setting, you can leave the Voice Guide to Life and then change the volume, speed, and pitch guide. Talk to Your Samsung TV When You Want To: And when you don't want to talk to it, you're absolutely unnecessary. Bixby Voice Assistant can be a fun and useful feature to be held. But if you wash too energy wake up, it may not be worth it. Also, if it gets up and talks to you when you don't expect it, that can be fast. So, if you're thinking about just turning it off for a while, now you know exactly how to do it. Do you use the Bixby Voice Assistant on your Samsung TV? Let us know in the comments below.
